Telecheck

EveryOneCloud Telecheck is a low cost solution to track employee time & location using a landline telephone onsite or mobile phone where permitted.

Telecheck is very simple to use! Dial and enter a pin to register employee presence. This is ideal for remote workers, lone workers, cleaners & service personnel.

Highly Configurable, Easy To Use Technology

- Configure site codes and link these through to clients, locations or other user definable tags for reporting/exporting.
- Track source telephone number and automatically able to map to clients, locations as well as identify employee mobile or home phone.
- Ability to view geographical location of remote staff via the mapping capability.
- 3rd Party user defined access can be configured within the system, which you control
- Timesheet Sign Off and Approval capability.
- Full auditing.
- You can customise the system with your own logo and branding.
- Quick to Configure, Easy to Use. Can be up and running within 3 hours.
- Mix and match other methods of data collection including Andriod Mobile Apps, biometric and card readers that can be provided with 3G where network connection not available.
- Fully cloud, no infrastructure required, simply access the system through a web-browser.
- Low cost, simple pricing model based on number of staff or number of clockings per month.
