

INTEGRATED WORKFORCE MANAGEMENT SOLUTIONS

45 years' experience - 1528 customers

Full Seamless Integration with CIPHR

HFX's SaaS Cloud Time & Attendance solutions are configurable for any company size and any sector. They make it easier for HR teams to manage complex work patterns, including those involving flexible and part-time hours.

Its software makes it quick and easy to create staff schedules, and handles holiday, shift and time-off requests too.

You can also use HFX's solutions to capture sickness and absence data, set up flexible working arrangements for mobile workforces, and analyse performance against KPIs.

HFX has over 80 clocking options from biometric readers to mobile devices. Its advanced connectivity also means you can keep existing time recording devices if you wish.

INTEGRATED WORKFORCE MANAGEMENT SOLUTIONS

45 years' experience - 1528 customers

CIPHR Seamless Integration and Data Flows

HFX's solution suite fully integrates with CIPHR's core HR system, as well as payroll, access control and other key business systems, so you have a comprehensive picture of your workforce.

CIPHR's two-way integration with HFX's solutions means user accounts are automatically updated or created when employee records are changed or made in CIPHR. Absence records are stored in HFX and brought into CIPHR for centralised reporting, ensuring all records are correct in real-time.

HFX has over 45 years' experience in building and delivering Time & Attendance and Flexitime systems, and first introduced the concept of flexible working to the UK in the 1970s.

With over 1,500 SMEs and Enterprise customers, the HFX client mix is evenly distributed between private and public sectors and includes some of the country's largest public-sector organisations.
